The above firm of Chattanooga is a first-class house, and will sell goods at the very lowest cash rates. Read their advertisement on our second page.

To those of our teachers and book dealers who want books and stationery at the very lowest wholesale rates, we would recommend them to W. & W. E. Williams of Knoxville, who have a card in this paper.

For several weeks past, almost every night, there has been some one who seems to make it a specialty to shoot pistols around the square at late hours. We call the attention of the city authorities to this and request them to hunt up the offender.

Lukens & Tanner.

Read the card of the above firm on our second page. Secure one of their "Monitor Separators." You'll never regret it.

For Recorder.

In this issue will be found the announcement of Mr. W. L. Sharp as a candidate for Recorder of the city of Cleveland. Mr. Sharp is well known in this community and therefore needs no praise from us. He has served this city in that capacity before, and has the name of being one of the best officers that has ever filled that position. He is a business man, a scribe, and a close collector, and that is the kind of a man a Recorder should be.

Notice to Subscribers.

If there are any persons receiving this paper that did not subscribe, they will please notify this office at once by letter or card, or they will be charged up and made pay their subscription. We have no dead heads. We make this notice because since the consolidation of the HERALD and Tennessee Journal, a few persons have been claiming that they were receiving the HERALD and were not subscribers.

This enterprising Chattanooga firm inserted an advertisement in this paper a few weeks since, and now they are getting almost as large a trade from Cleveland as any house here. They know how and where to advertise.

How Things Do Change.

But a few months ago, when Governor Chamberlain was trying to reform South Carolina and the Supreme Court was fighting him, the court was characterized by the Democratic papers as a set of "thieves, vagabonds, scoundrels, &c."—which they really are. But now that the same court gives opinions in favor of Democracy, the Democrats say they are upright men, honorable and honest, and that Chamberlain & Co. are the true "thieves, rogues and liars."

A Fine Hog.

Frank Kelley heads the list as a big hog raiser. He killed one last week that weighed 430 lbs. gross—400 lbs. net. Sam. Silberman vouches for the weight, and everybody knows Sam. won't lie. Frank shall have the premium until another "princet" is heard from.

"Johnnie Reb" writes from this place to the Jasper "Herald," giving "Fair Play" of Pikeville, a few side swipes. Our patrons at Pikeville will please notify "Fair Play" that the columns of our paper are open to him.

The Bull-dozer says all they want at the hands of the Republicans is justice. The Chattanooga Commercial thinks there is not enough rope in the country to give them all "justice."

Closing Free School Exercises.

EDITOR OF HERALD: The free school closed at Bates' School House on the 18th inst. with great honor to the teacher, scholars and community. The examination, though brief and concise, fully demonstrated that Prof. Henderson had not been idle while in the school room. The most striking feature of the exhibition proved to be the junior debating society. Little boys not seven years old stood before the audience and defended the subject with almost manly energy. The remaining time was occupied by the senior literary society, which was interesting in an intense degree.

The music was of the most excellent character, though performed by one so young and small. Near midnight the crowd dispersed. Taking everything into consideration, the scene was enjoyable beyond description.

A. G. SMITH,
President Literary Society.

"Eureka" is the sentiment of countless sufferers who find the balm of relief, and the fountain of their health and strength, in Ayer's Sarsaparilla. It is the most potent of all the alteratives to purify the system and cleanse the blood. It possesses invigorating qualities, so that it stimulates the faded vitality and purges out the corruptions which mingle with the blood, promoting derangement and decay. We are assured by many intelligent physicians that this medicine cures beyond all others of its kind, and we can fortify this statement by our own experience.—*Atlanta Weekly Flag.*

Nash says, "the Bull-dozer" are in on the raised by the Radicals." Poor Nash's always in trouble.

To those of our subscribers who were to pay for their paper in meal and flour, we would say that our bread stuff is out. Bring it along without delay.

We Need Regulating.

The human body is a most delicate piece of mechanism, and is liable, without proper care, to be thrown out of order. If the bowels, liver, blood, or kidneys, become at all deranged, the whole system suffers. Nature has provided remedies for such accidents, in the plants with which the earth is covered, and knowledge of the properties of the means thus furnished led to the discovery of Dr. Hart's Antibilious Discovery, a sovereign remedy for all such disorders.

Meeting of Bible Society.

The Bible Society of this place will meet at the M. E. Church South at 8 o'clock p. m. next Sabbath. Revs. J. H. Keith and S. W. Tindell will give short addresses. By order of

A white boy met a colored lad the other day and asked him what he had such a short nose for? "I spec's so it won't poke itself into other people's business," replied the darkey.

The Benton and the Chatata Literary Societies had a public debate at Benton last week. The Benton boys came off first best in the battle. Those Benton chaps may feel proud over their victory, as those fellows at Chatata are hard to "turn down."

The "Radicals" and "Bull-dozers" around Cleveland are getting in a good humor once more, they can laugh and talk together now about the election without growling. Whereas a few weeks ago they would have "cussed" each other had it not been they all belonged to the meeting house.

A Singular Disease.

A very singular disease has developed itself in the lower part of this county. Mr. Allen DeArmond and his daughter Miss Letta have both died of it the last two weeks, and now the mother is lying very low, not expected to live. None of the Physicians seem to know what it is. The patient only lives about eight days after taking. The deceased are the father and sister of Mr. J. T. & S. H. DeArmond of this city.

wonderful Success.

It is reported that Borchers' German Syrup has, since its introduction in the United States, reached the immense sale of 40,000 dozen per year. Over 6,000 Druggists have ordered this medicine direct from the Factory, at Woodbury, N. J., and not one has reported a single failure, but every letter speaks of its wonderful success in curing severe Coughs, Colds settled on the Breast, Consumption, or any disease of the Throat and Lungs. We advise any person that has any predisposition to weak Lungs, to go to their Druggist, A. B. Seng, and get this Medicine, or procure about it. Regular size, 75 cents; Sample Bottle, 10 cents. Two doses will relieve any case. Don't neglect your cough.

We Say Again.

We suppose you didn't hear when we told you a few weeks ago to send us the money for the JOURNAL. If you didn't hear us, we would say again, send on the money. Send on the money by return mail. It is needed. Now gentle reader, will we have to say anything more about this matter? If we do, we will send Big Bill Tipton in person after you. He weighs a little less than a thousand pounds. He is Virgil's Cyclops, but he has two good eyes. Now get scared and send the money.

An Appeal.

The times are perilous and threaten to be more so. It is necessary for every good citizen to think, say or do nothing that will inflame the passions of the multitudes. Be quiet; we must be quiet. We can be men and possess manhood and yet be quiet.

At this present writing all the information we have forces us to believe that Gov. Hayes is elected President and in due time will be declared so elected. Our information forces us to believe also that the Democrats are not going to be satisfied. If the Democrats of the South can get the Democrats of the North to head the way they intend to prevent the inauguration. They will do this by every lawful means in their power and failing to accomplish their end by the use of lawful means, they will resort to unlawful ones—will resort to force.

We must have war, blood must be shed, and yet the right must prevail, justice must be done. While we believe that the Democrats in the madness of the hour rather than lose the spoils of office, although they may be fairly convinced that Hayes is elected fairly, will be willing to plunge the country into another bloody war, yet the Republicans must stand as firm as the everlasting hills to save the government intact and to prevent bloodshed. Fortunate it is for this country that we have a Grant, a Sherman, a Sheridan, and a host of other military leaders of brain and nerve. But every good citizen, every lover of his country and lover of peace, can and must do something to bring quiet and order out of trouble and confusion. The commonest and most unlearned citizen can have an influence in favor of peace. My dear reader, let that influence be exerted. Now is the time of danger, don't get excited. Keep quiet. No one need fear trouble from the Republicans. When the count is finished, if it should so happen that Tilden is elected, that will be the end of it; the Republicans will quietly acquiesce, and he will be inaugurated. But if it should so happen that Hayes is elected, the Democratic politicians will raise a row if they can get the people to support them. We earnestly make this appeal to the people in favor of peace. Beware of the Democratic politicians; they plunged the country into war in 1861 because they failed to elect their candidate for President, and they will do the same now if the people will follow them. Let us have peace in spite of the Democratic politicians. The graves of the dead veterans of the late war are not yet overgrown with grass, their widows in mourning are yet in the land and their orphans—many of them—are now crying for bread. Shall we have another war to gratify politicians hungry for office? May Heaven forbid! Let the people forbid! We want all the people—Democrats and Republicans—to remember this, that every difficulty that now exists or that can possibly arise in connection with the Presidential election, can be settled peaceably according to the law of the land and the Constitution of the United States. Let the people arise and demand that it shall be settled. If the people will only keep quiet the politicians will be compelled to settle the trouble without war. Keep quiet.

The Democratic Programme.

If it turns out that South Carolina, Florida and Louisiana have gone for Hayes and he is elected, the Democrats intend to insist that both Houses of Congress must concur in the counting of the electoral vote. Next thing the House of Representatives will object to counting these three States and then they will withdraw and elect Tilden President. In the meantime the Vice President will pay no attention to

their objections to counting the three States named and he will declare that Hayes is legally elected President of the United States and he will be duly inaugurated. This is the Democratic programme, and it may be necessary to burn a little gun powder about Washington City to learn the Rebels in the House of Representatives a lesson of obedience to law. It must be apparent to all that these Rebels did not get enough wholesome correction during and after the late war.

If Tilden should be elected as indicated above, the circumstance reminds us of an anecdote Bill Stokes used to tell through this country. A lot of fellows had met to have a punchon floor dance, and among them was crooked-nosed, long-armed, bow-legged, big-footed and barefooted Sam. In laying off the part that each was to take in the dance, those with boots, fine shoes, brogans and moccasins were each to have a female partner, but it was decided that bare-footed Sam must jigger away in the corner by himself. In this event named, if Sam's Tilden should be elected President by his Rebel friends in the House of Representatives, he will have to jigger away in some corner by himself. He will have no Senate to confirm any of his appointments.

Now is the Time to Subscribe.

There never has been a time in the history of our country that was so excitingly interesting as the present time. The history of 1860-1 did not equal it. We can see far enough in the future to know that from now till the 4th of March 1877 will be the most interesting part of American political history during the century. Beyond that time we can't see. If Hayes is elected President, (of which we have no doubt) the Democratic politicians are going to try to turn the devil loose in our country. If Tilden is elected, (of which we have no hope) the Republicans will be good law-abiding citizens as they always are, and will have peace and quiet. The Republican party is the party of law and order, and if the Democrats don't behave, as in 1861, it has been the policy of the Republican party to make them behave. This may have to be done in 1877. We hope not. The common people who have to do the fighting we don't think will be so easily led into war by the Democratic politicians as they were in 1861.

But it makes no difference what may happen, for is certain that something is going to happen; now is the time to subscribe for a paper. We intend for the WEEKLY HERALD & TENNESSEE JOURNAL to be full of news and we intend editorially to occupy safe ground, therefore we ask you to subscribe now and keep yourself posted as to passing events. There may have been times when the common people could afford to do without a paper, but this is not the time. If there is going to be war you are the bone and sinew of it, you are to face the bullets and fill the graves and it is your duty to yourself and families to know what you are going to fight about. Don't let Democratic politicians drag you ignorantly into war. These same fellows in 1861, hungry for office got mad, not because Abraham Lincoln was elected, but because their man was not elected, and persecuted many of you to join the Rebel army. Don't do so now. We don't think you will. Read and keep yourself posted and I know you won't. Send your name and the money along and get the paper. Right now is the time.
